If this resolution be adopted, I promise, by the aid of a competent bookkeeper, to show, and to give the names to the tax-payers through the press, that members of the City Council have made 2 per cent, commissions selling city bonds; that thousands of dollars have been paid, and are now being paid, to a few fa-vorites of the Council for various supplies bought for city use, thus preventing honest competition by our merchants. Copies of receipts giving the names of members of the Council, with prices paid them for arti-cles furnished the city, will be furnished the tax-payers through the daily press. Thus it will be shown why some men can

afford to spend hundreds and thousands to be elected to serve the dear people. Captain Clarke's second resolution, pro-hibiting members of the Council from selling supplies directly or indirectly to the etty or her employés, will protect the city and its honest employés, who have been quietly forced to buy from certain members of the City Council at high prices or lose their situations, thereby being virtually made slaves and forced to sacrifice their independence and manliness, and destroy-ing their usefulness to the city as efficient employes. It will also protect the treasury of the city from excessive charges, as no member can then furnish supplies and pass on his own account with the city, acting in the double capacity of city agent, whose duty is to buy at the lowest price, and on his own behalf to sell at the highest price

I again exhort the fax-payer to interview at once their delegates, and impress on them their duty to vote for Captain Clarke's resolutions, if they really desire reform; and thus show to their constituents that they court investigation and desire reform.

These resolutions may bear hard upon some personal interest represented in the Council, but let us all be satisfied with the honor of serving the city, and let our less honored merchants make legitimate profits sire reform. by selling to the city.
